Linnea
Bench Desking Range

Modesty Panels

Modesty panels are an optional extra and can be specified at the time of ordering or fitted after the initial purchase, should the requirement arise.

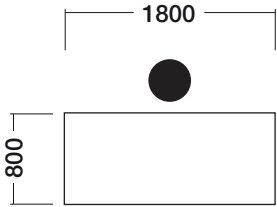

Rectangular Bench

Rectangular bench desking offers the user a traditional workspace. The range is available in various widths and depths to suit multiple applications. Optional modesty panels and cable trays are available to complement the desk. Linnea offers the user a modern and contemporary workstation.

Shown:

LR18/8	1800mm Rectangular Bench x 800mm Deep	White MFC
LLCR	Linnea Cable Risers (Optional)	White
LRMP18	Modesty Panel (Optional)	White
LRCT18	Cable Tray (Optional)	White
ENNHB	Enna Executive High Back Manager Chair	Black Leather
ENN/G	Enna Executive Meeting Chair With Glides	Black Leather

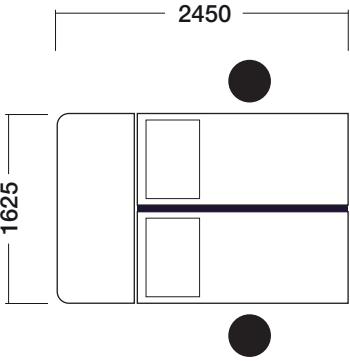

Double Bench

Double Bench workstations share components reducing the number of legs required. In addition, sliding tops are standard on all double benches providing simple and easy access, high capacity wire management trays. Meeting extensions are compatible with double benches and are ideal for meetings and increasing the user's desk space without the need for leg supports.

Shown:

| LSME16/6/S | Straight Extension | White MFC |
| ELSS18/F | Fabric System Screen | Lucia: Ocean YB100 |
| DMPF | 3 Drawer Mobile Pedestal | White MFC |

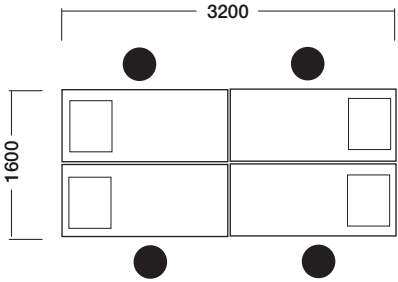

Double Bench

Double bench workstations can be specified with or without a dividing screen panel. Screens can be easily retrofitted should the user's requirements change. Linnea bench offers total flexibility to enable the desk system to grow with your ever changing environment.

MTFP	Mobile Tambour Filing Pedestal	Ash MFC

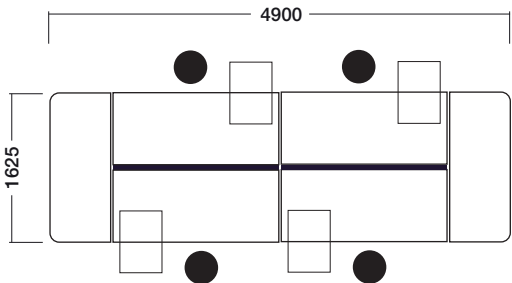

Double Bench

Linnea double bench workstations can be configured with desk extensions to maximise the users working space. Each desk top glides towards the user, enabling easy access to the high capacity wire management tray. The top can be locked in the open and closed position with an optional extra 'locking pin'.

Shown:

Double Bench

Linnea benching can adapt to every business environment. Mobile storage solutions can be specified to enhance individual filing capacity and increase the users available work surface. Mobile elements are supplied on castors enabling the user freedom to position storage according to their personal preference.

Double Bench

Double bench desks are manufactured with fully interchangeable components, enabling runs of desking to be increased, reduced or separated into smaller clusters. Management rail screens can be specified, compatible with a screen mounted monitor arm fixing. This can be used in high density applications, providing the user with the further workspace by suspending the monitor above the desk.

Rectangular Workstation Shared Leg Insert

Rectangular single bench desks can be specified with a shared intermediate leg, allowing you to connect configure two workstations next to eachother. This solution provides the users with the maximum use of the available space below the workstation surface. It also allows the work area to be minimalistic and clutter free.

Shown:

LR18/8	Rectangular Workstation	Ash MFC

Cluster of 4 Workstation Layout

Optional Accessories

Horizontal Cable Tray
Illustrated in red.
Cable trays are supplied as standard on double benches and optional with all single and angular workstations.

Silver finish as standard.

Modesty Panels
Illustrated in red.

Modesty panels can enhance the aesthetics of your Linnea bench desking. They can be retrofitted at a later date, without removing the workstation top.

Silver finish as standard.

Power & Data Access
Illustrated in red.
The horizontal cable tray can be unhinged in either direction, allowing complete access.

Cable trays can be easily installed or removed, suspending from the underframe.

Silver finish as standard.

Cable Risers
Illustrated in red.
Cable Risers can be easily positioned and secured using a clip-on mechanism. They can be positioned on the inner or outer side of the leg frame, to suit the user.

Silver finish as standard.

Independent Sliding Tops

Linnea Double Bench desking has been specifically designed with independent sliding tops. This gives access to the standard cable tray for housing all electrical and data services.
(Standard on Double Bench desks only, Single desks are non-sliding)

BS 6396: 2002 Compliant

Linnea bench desking has been tested to BS 6396. A copy of the standard can be obtained from the sales office and if followed correctly, will ensure the desk is compliant with the BS 6396 standard specification. Failure to follow the guidelines may result in a non-compliant installation.

Various methods of floor to desk power and data access.

- A. Spiral Cable Riser
- B. Externally positioned Cable Riser
- C. Internally positioned Cable Riser

Code: SCR/S
Code: LLCR
Code: LLCR

Intermediate Leg Cable Plate

Illustrated in red.
Silver finish as standard.

High capacity power and data cables can be hidden more effectively using the Intermediate Leg Cable Plate. Clip-on steel panels hide cables from both sides. Available for Double Bench desk only - not compatible for single bench desks.

Code: LCP12/INT 1200mm deep bench desking (2 x 600mm bench)
LCP16/INT 1600mm deep bench desking (2 x 800mm bench)

Also available in White and Graphite Black.

Sliding Top Locking Pin

Illustrated in red.
Available as an optional extra, this spring loaded locking pin allows double bench tops to be locked in either open or closed positions.
