PRODUCT OVERVIEW

Matrix is a complete systems furniture range with a host of options and solutions. The range is inclusive of double benches, single and managerial workstations, meeting tables and meeting ends. Shared legs are a feature of the Matrix range minimising the number of legs required and increasing the usable space for the user under the workstation.

Optional horizontal cable trays and vertical cable risers ensure cables can be routed within the workstation from the entry point of the leg to the underside of the desk top. A high capacity horizontal cable tray is available for the double bench workstations. A comprehensive range of desk mounted screens are compatible with Matrix workstations enabling workspace to be private and defined. In addition, a full range of accessories are compatible including monitor arms, CPU holders and desk top electrics.

MANAGERS WORKSTATION

Matrix Managers Workstation specified with a Modesty Panel in the Autumn Cherry DualBoard MFC bears an executive feel.

Matrix delivers sophistication, a contemporary style and is multi-functional, as well as looking effortlessly chic in a modern environment.

MMA18/16RH MRMP18 MPF BRG	Matrix Managers Workstation. Matrix Modesty Panel. 2 Drawer Low Mobile Pedestal. Bridge Handles.
ISIT/UH/4D2/FIB/PB	i-Sit Task Chair. Upholstered Headrest. 4D2 Arms. Fabric Insert Back. Polished Aluminium 5 Star Base.
ISITC/CA/CCF/FIB	i-Sit Upholstered Cantilever Meeting Chair. Fixed Arms. Chrome Frame. Fabric Insert Back.

DOUBLE BENCH WITH MEETING EXTENSION

Matrix Double Bench with a Straight Meeting Extension in Grey DualBoard MFC. The Two Drawer Low Pedestal with Seat Pad is mobile and enhances the work setting, incorporating storage and additional seating to the workstation.

M18/16 MSME16/6 MPF/SP BRG/B	Matrix Double Bench. Matrix Straight Meeting Extension. 2 Drawer Low Mobile Pedestal with Seat Pad. Bridge Handles.
ISITM/4D2/PB	i-Sit Mesh Task Chair. 4D2 Arms. Polished Aluminium 5 Star Base.
ISITL/LA/CLF/FIB	i-Sit Upholstered 4 Legged Meeting Chair. Fixed Arms. Chrome Frame. Fabric Insert Back.

ANGULAR WORKSTATION

The Angular Workstation with a Desk High Side Filing unit provides ample working space with sophistication. Perfect if you like that extra bit of space and a clearly defined working area.

Matrix's fresh White DualBoard MFC is complemented perfectly with the vibrant colours of the i-Sit task and meeting chairs.

M18/10/8LH NSF2/6 BRG/W DMSF/FW	Matrix Angular Workstation. Side Filing Unit. Bridge Handles. 3 Drawer Steel Flat Fronted Mobile Pedestal.

The single cable tray fixes to the crossrail and can be accessed from the users side.

The double cable tray can be unhinged easily from either side.

WIRE MANAGEMENT

Matrix Cable Trays are an effective way to manage the flow of cables and sockets along the underside of the bench top panels, securing all power and data cables.

Cable Risers accommodate cabling from floor to desk top, ensuring cables are free from causing obstruction. When coupled with the Matrix Cable Trays, this achieves BS6396:2008 compliance.

DUAL BOARD MFC

EDGING FOR WHITE DUALBOARD MFC

Elite are an exclusive user of the superior quality melamine board called ‘Dual Board’.

The board consists of a chipboard core surfaced on both sides by a sheet of MDF. The newly developed ‘Dual Board’ material offers significant advantages including structural, machining and component strength.

The material offers Elite’s client increased quality and added value. It offers greater impact resistance combining the durability of MDF and Chipboard into a single board.

The MDF faces of ‘Dual Board’ eliminates any irregularities associated with raw chipboard and translates this into a smooth, even surface. For our highly complex production operation this level of board performance is essential and translates directly into the high standards of quality offered to Elite clients.

UNE-EN 14323
DualBoard - Board Test methods.

BS EN 13722:2004
Gloss/reflective level testing on furniture surfaces.

UNE-EN 14323
DualBoard - Test methods details:

Perfect cutting during manufacture

Thanks to its high physical-mechanical performance, Dual board provides an excellent response in the most demanding load situations.

Excellent performance when fastening with screws and fittings.

High resistance to impact. This prevents marks, deformities or surface damage.

Low surface absorption thanks to the properties of the outside high density fibre layer.

NATURAL VENEER FROM RENEWABLE FORESTS

Elite cannot guarantee continuity in the appearance of veneer panels. Elite process pre-veneered boards that cannot be book or colour matched.

PEFC : PROGRAMME FOR THE ENDORSEMENT OF FOREST CERTIFICATION

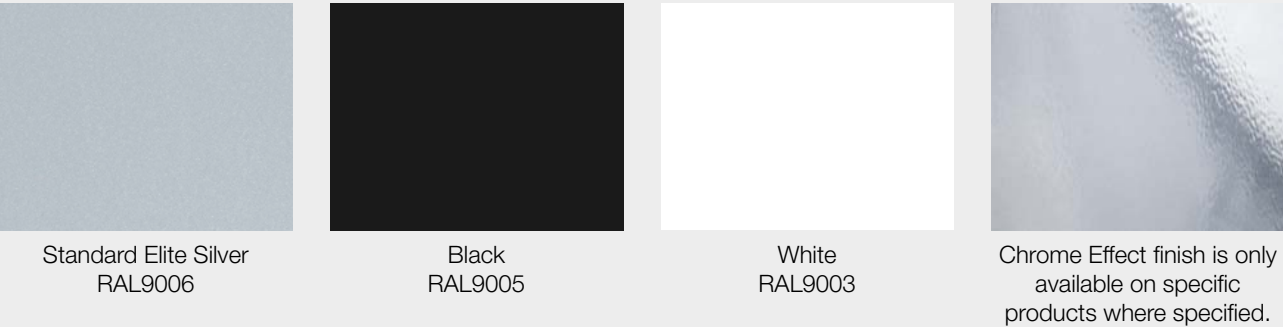

PEFC is the world's largest forest certification organisation

PEFC is the world's leading forest certification system and an internationally recognised brand devoted to ensuring that forests are managed according to environmental, social and economic criteria.

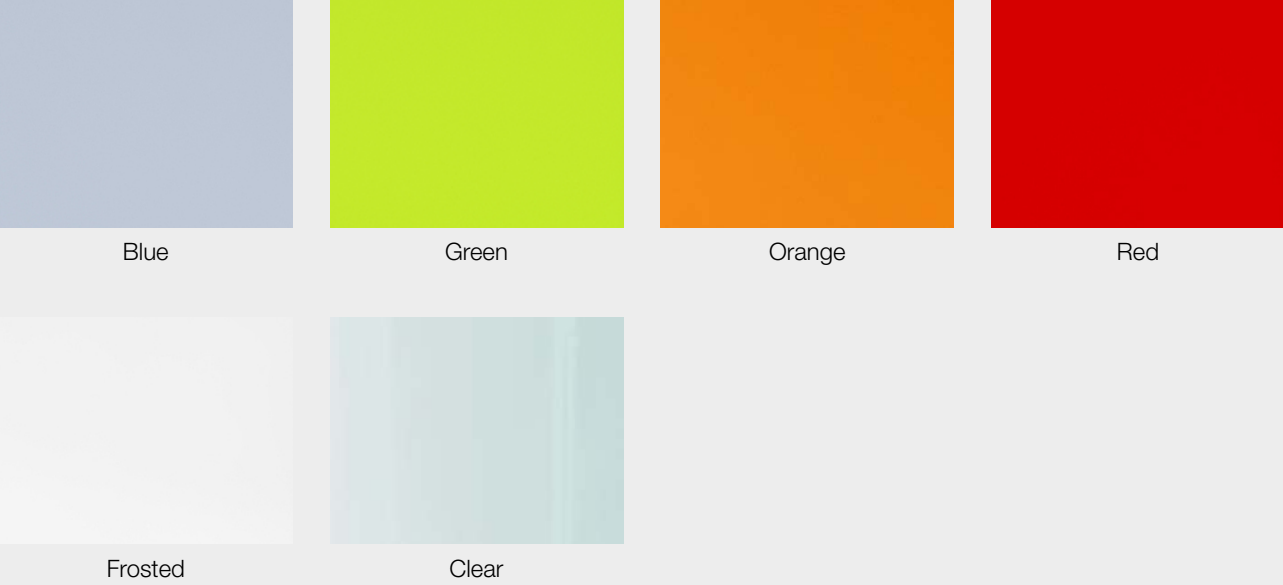

PEFC are an international non-profit, non-governmental organisation dedicated to promoting Sustainable Forest Management through independent third-party certification.

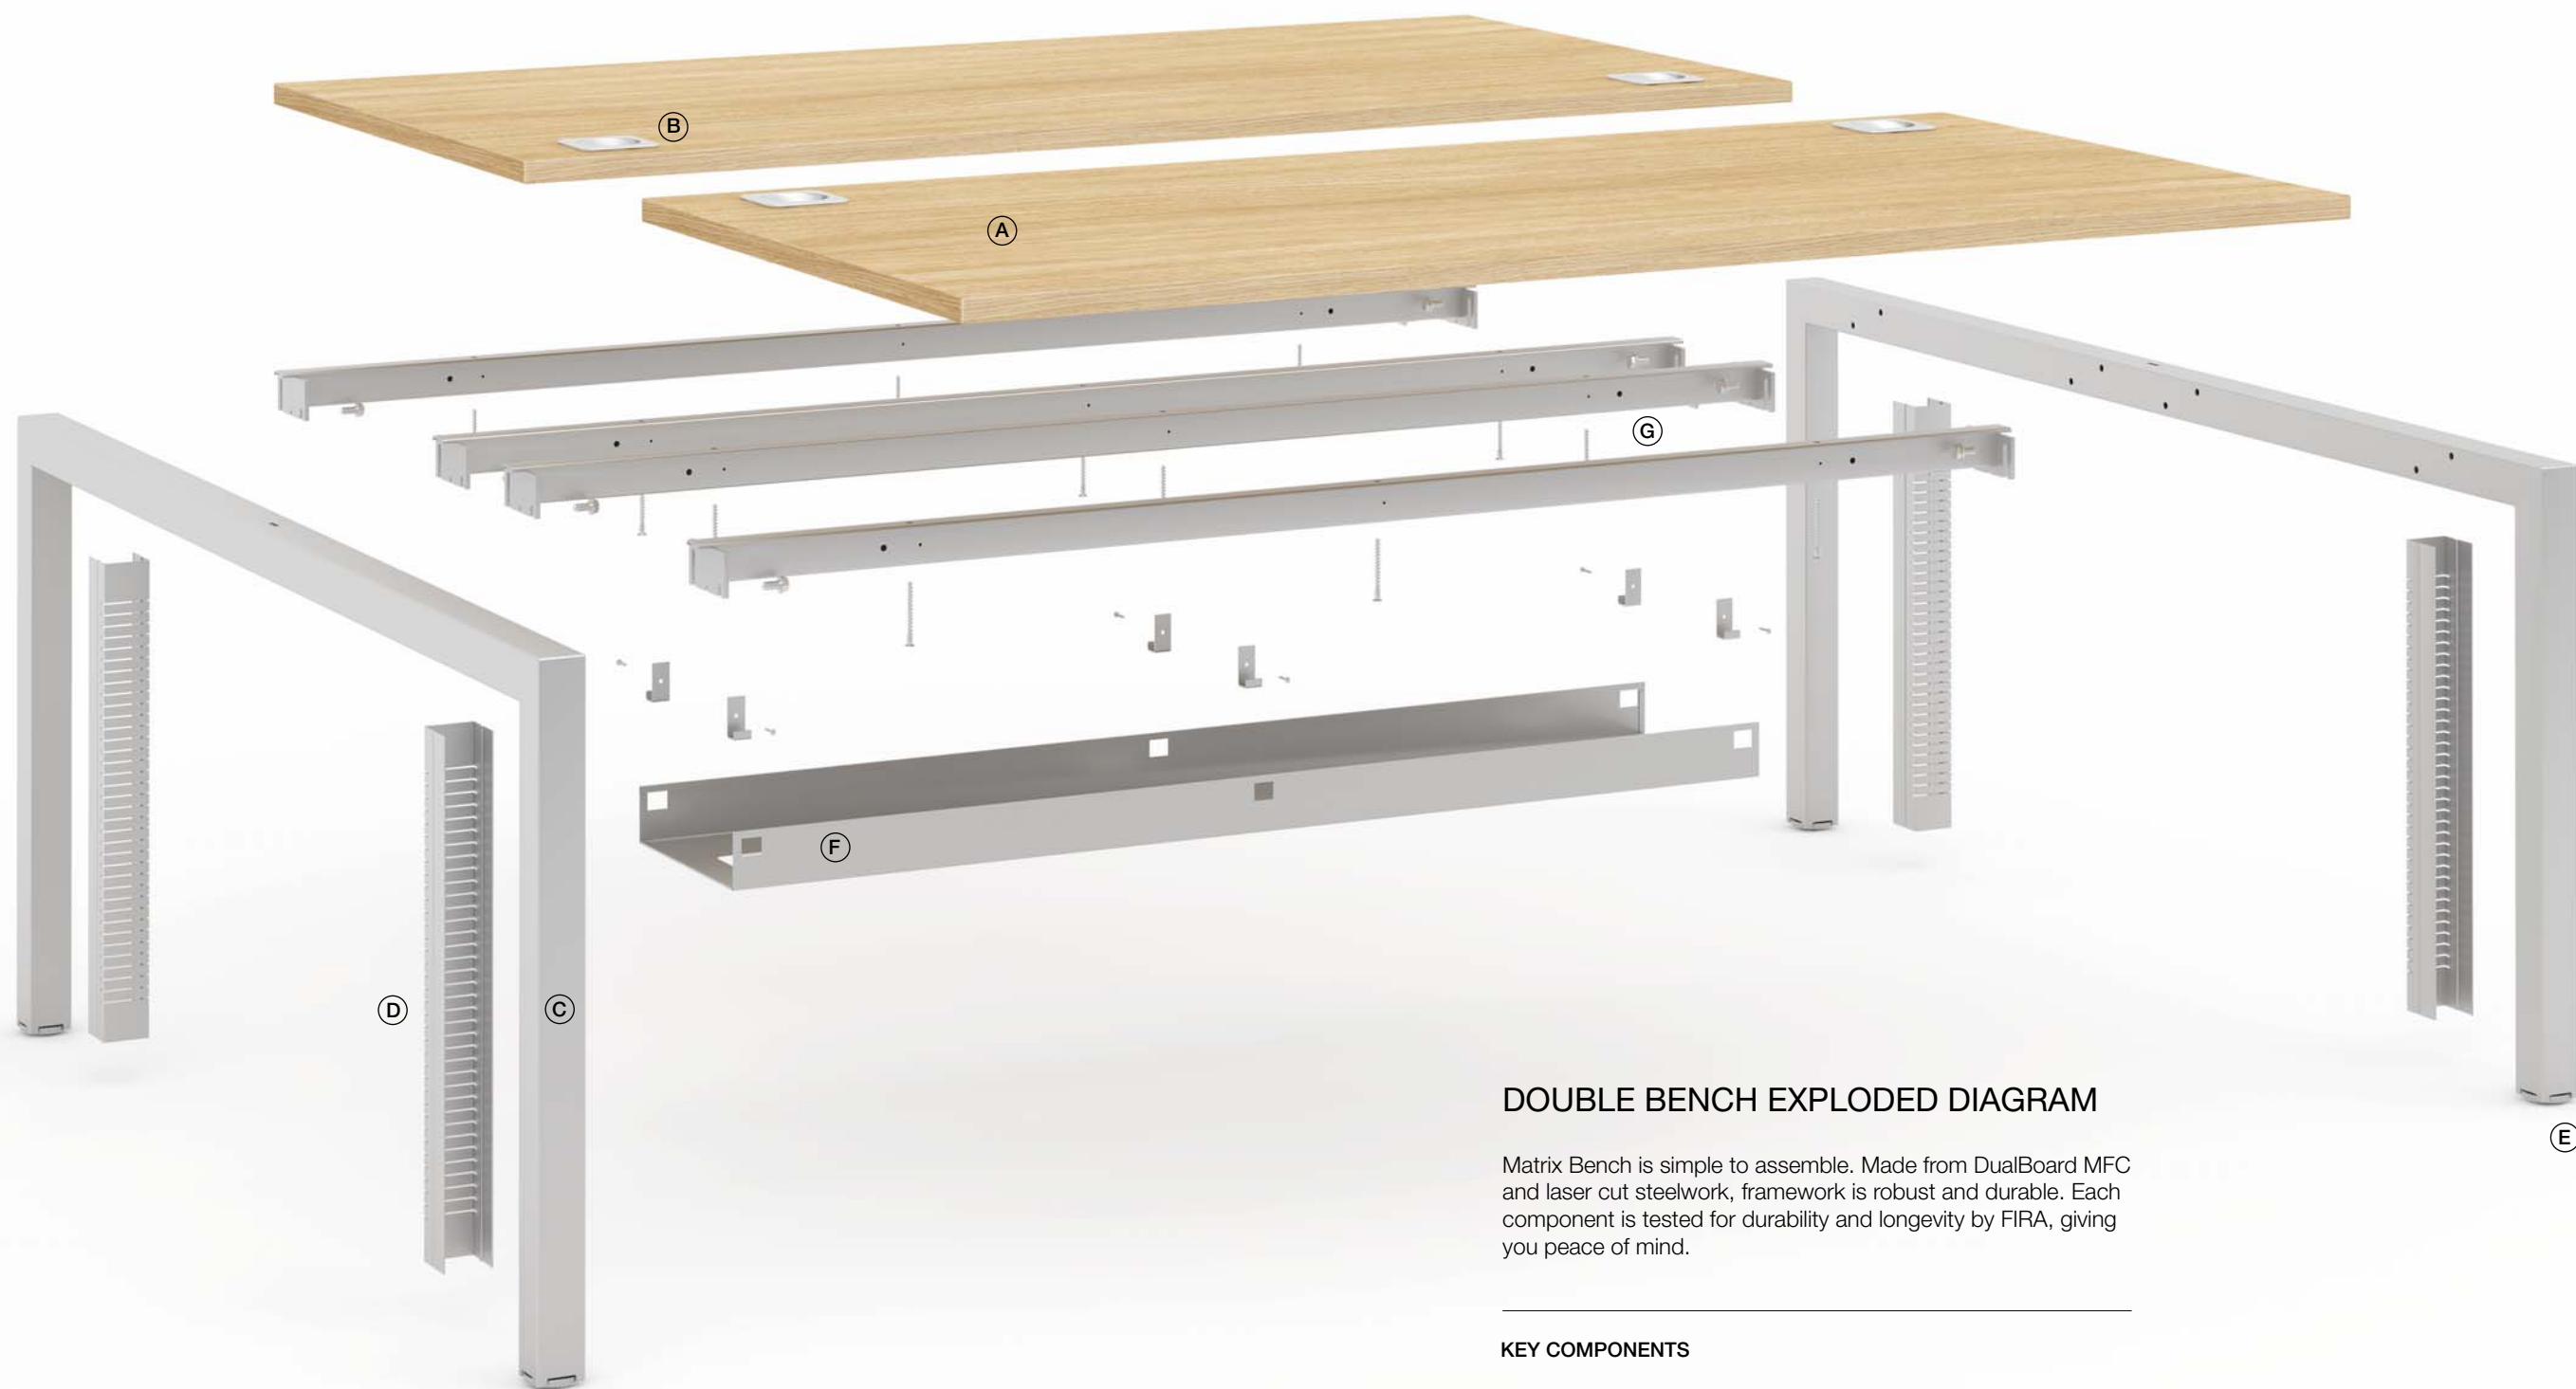

PEFC works by endorsing national forest certification systems developed collaboratively by all interested stakeholders and has recognised certification systems in 36 countries.
